Mr. David F. Gleason
2520 Wellington Road
Cleveland Heights 18, Ohio

Dear Mr. Gleason:

This is just a short reply to your very welcome letter telling us that you received the signal from our new radio station KUPD. It was quite a thrill for us to hear from you considering the fact we have been on the air for such a short time.

It is always gratifying to us to know that someone will take the time to let us know our signal is heard at such a distance.

All the information you mentioned in your letter is quite accurate and we do thank you for writing to us. We have enclosed a coverage map as you requested. May you continue to hear KUPD for many moons to come.

Sincerely,

Bill Clifford
Executive Vice-President
Tri-State Broadcasting Co., Inc.

April 29, 1960

Dear Sir;

This is to verify your reception of our station on April 11, 1960.

I was making a frequency measuring check for T & T Radio Measurements Co in Long Beach, Calif.

Thank you for your letter.

Yours truly
Fred Mull

Phoenix, Arizona

February 15, 1963

Mr David F. Gleason
2520 Wellington Rd.
Cleveland Heights 18, Ohio

Dear Mr Gleason:

This will verify your report of reception of KRDS, 1190,
Tolleson, Arizona, on February 4, 1963 at 12:25 am EST.
It is completely accurate.

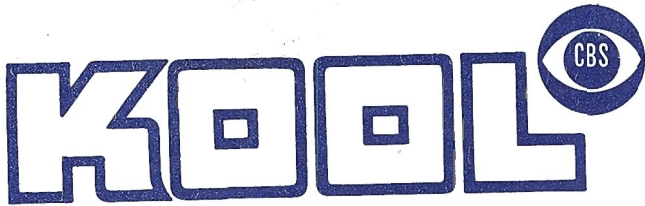

KRDS (formerly KZON) broadcasts from Tolleson, although
its business offices are located in Phoenix. Tolleson
is just outside Phoenix.

The station letterhead is still in the works consequently
was not available for this reply. No coverage maps are
available as yet.

Thank you for your report.

Yours sincerely,

Gary Seger
Program Director
KRDS Radio

Dear Mr. Gleason:

This will confirm your reception of KOOL on Oct. 17, 1959. Thank you very much for the report. You were listening to the last all night show of KOOL. Our operating schedule is now 6 AM to Midnight. MST of course.

You may be interested to know that KOOL operates with a power of 5KW and a directional antenna at night. You were on a sky wave skip that had undoubtedly gone around the world, since our major lobe of signal is southwest, and we protect stations to the northeast of us.

Again may I thank you for the report of KOOL.

Sincerely,

A handwritten signature in cursive script, appearing to read 'N.F. Nichols'.

August 9, 1961

Mr. David F. Gleason
2520 Wellington Road
Cleveland Hts. 18
Ohio

Dear Mr. Gleason:

We thank you for your letter to us in connection with our equipment tests last week. Please forgive me for this impersonal method of replying (the mail has me somewhat "snowed" under). I hope that you will accept this note as verification of your reception -- everything checks perfectly with what we aired August 2, 1961.

We will be a daytime 50 KW and we should get approval sometime the latter part of the week to start our regular broadcast schedule. Later this year -- or perhaps not until next year -- we hope to be on fulltime, probably 5 or 10 KW nighttime.

Our tower is 380 feet in height and is located some 7 miles north of our studio here in Tucson.

It was a sincere pleasure for us all to hear from you. Again, many thanks and the best of luck to you.

Very truly yours,

Joe Frank
Program Director

Good to hear from Ohio! No rock and roll will be on KFIF... We appreciated your letter very much, especially our chief engineer, Pete Trowbridge. Good Listening to you.

Dear Mr. Gleason:

I am sorry to have caused you the inconvenience of having to write five times. However, I am pleased to be able to answer your letter.

At the time this test was conducted, the engineer got so many replies that he asked me to help him answer them. He took some and I took some. In the interim he left our employe, and he had some letters with him, and since he left no forwarding address, I had no way of contacting him. One of your letters was probably in his possession.

To make things still more complicated, I just returned from a month's vacation, and I am just now getting caught up on my correspondence.

Again I am sorry for this inconvenience and I thank you for your perseverance. May I wish you much success in your future DXing.

Sincerely,

Jane C. Hoerner
